"SPACE FLIGHTS AT SPEED OF LIGHT CALLED POSSIBLE"

Detroit, Jan 14(UP)----An Air Force engineer said today space flights at the speed of light were possible but scientists would have to revise their basic thinking on fuels. In a report to the Society of Automotive Engineers here, D.G.Samaras of Wright Field Development Center urged scientists to direct their attention away from thermal fuels. He said by developing highly efficient non-thermal fuels, aircraft could be speeded up greatly but added: "It may take quite some time, effort and ingenuity before our primitive vehicles will fly at speeds approaching the speed of light."

January 6, 1953: San Antonio Evening News

"BRIGHT ARROW-SHAPED OBJECT SIGHTED OVER DALLAS"

Dallas, Jan 6(UP)---A bright colorful object, "shaped like an arrow head," was in sight over Dallas for two hours Tuesday and officials who observed it said it "definitely was not a star or plane." Police Dispatcher Lewis Passons said he began receiving calls at 1 a.m. describing the thing as green, orange and red, shaped like an arrow-head, and giving off a whirring noise. Wyle Moore, controller on duty at Love Field said he first spotted the object at an estimated 30,000 feet, marked the window and in an hour and a half it had climbed to above 100,000 feet. Rough estimates by pilots and observers placed the objects speed at 2,000 mph. Reports of the object came from as far away as Paris, Tex., about 100 miles northeast of Dallas.

January 16, 1953: Detroit Times

"U.S. MISSILES ABLE TO SPAN SEA SOON"

Washington, Jan 16(UP)---Air Secretary Finletter said today the United States would have a guided missile able to span the ocean with accurracy "fairly soon." He told a farewell news conference that for perhaps 30 years there will be mixed phase in which both guided missiles and piloted airplanes will be used by military services. He added that advances in explosives made accuracy less important.

Hold for Guided Missile

18 January 1953: Los Angeles Times

"FIREBALL OVER FRISCO"

San Francisco(AP)---The San Francisco bay area was entertained last night by a fireball meteor that streaked northwest above the peninsula and fell into the Pacific somewhere off the Golden Gate.

Dick Williams Mirror Entertainment Editor Monday Jan. 16, 19

HERE ARE SOME NEW PUZZLERS ON FLYING SAUCERS RIDDLE

The deal concerning the flying saucers is by no means dormant. Variety, the show business publication, which seems to deal with a variety of things besides screen, stage and radio, continues the big question of 1950 in its current issue, taking up where True magazine left off in its recent sensational story.

Frank Scully, who does the Scully's Scrapbook column in Variety, previously ran two columns on some personal angles unearthed on the Air Forces' Project Saucer. Later came the True magazine article. Within 24 hours of its appearance, an Air Force spokesman blew the whole thing down and said they were closing Operation Saucer.

Says Variety's editor: "Operation Saucer has not been closed down, only dummied up."

Columnist Scully is of the opinion that the Air Force top command decided to hide behind a "spokesman" and close the subject of flying saucers because they didn't want to be asked any more questions to which they personally or professionally didn't have the answers.

LIST OF $64 QUESTIONS FOR AIR FORCE.

These are some of the pertinent questions Scully fires at the Air Force based on his investigations:

1. Do you think it such a good idea to close off Operation Saucer at this time when the records show that more saucers fly the skies between Dec. 21 and Feb. 15 than at any other time?

2. Why is it that pilots who have been trained to identify every make, model and nationality of airplanes all describe these space ships they have seen as "saucer shaped"?

3. Did the Air Force wrecking crews break up one of these ships instead of letting it in the hands of magnetic engineers until they could study in detail how such a ship, if not put together on this earth, could have transferred from the magnetic lines of force from another planet? In other words how could they leave on their beam and land on ours?

4. Did the Air Force ever make public what the "explosives" looking like a dismantled flying saucer were, which they transported in army trucks from a western research base to Dayton, Ohio?

5. Weren't all the saucers found on the Western hemisphere magnetic rather than jet jobs?

6. Wasn't the small one, which was 36 feet in diameter, equipped with landing gear which had steel-looking spheres instead of wheels and which when moving could not be tipped over by 10 men but when not moving could be tilted by one man?

7. Why don't you release the tape recordings of comments and questions asked at the public viewing of one of the men picked up dead from a flying saucer, put in a preservative solution, and placed between human specimans from prenatal to grown man in an exhibit at the Rosenwald Institute, Chicago?

8. What has happened to the remains of the 16 men found dead in one of the large saucers and the two in a smaller flying disc?

ARE FLYING SAUCERS HERMETICALLY SEALED?

9. Did you ever find the secret of how these flying saucers were hermetically sealed so as to show no outside crack when the door was closed?

10. Did you ever see a radio like the one which was on the flying disc that landed on a ranch near Aztec, New Mexico?

11. Wasn't that the saucer that was dismantled by Air Force souvenir hunters and shipped to Wright Field, Ohio?

12. What do you know about magnetic fault zones in certain areas on this earth and notably in Oregon?

13 Do you know how magnetic waves emmanate from the sun, revolve around the earth, continue on to the earth's moon, come back to the earth and return from there to the sun? Do you know that magnetic waves following a similar course travel between the sun, Venus and her moon? If you didn't know much about this, why did you insist on tearing open everything that might have helped the magnetic scientists into determining if a saucer magnetically controlled could hop from one magnetic zone to another?

14. Since the scientists who researched these saucers have never been able to find any evidence of two of the saucer's metals on this earth, how much nearer to a solution has Air Force Intelligence come since taking over the project and now presumably shelving it?

I join Mr. Scully in awaiting with considerable interest the answers to these questions as I presume all of you do. What do you readers think? Are they holding out on us? And incidentally, there's a new movie coming out called "The Flying Saucer".

January 10, 1953: San Antonio Light

"SAUCERS SEEN IN KERRVILLE"

Kerrville, Tex., Jan 10(AP)--Radio Station KEVT blamed yesterday's 75 second interruption in its operations to a "red, orange, oval-shaped object which buzzed this central Texas town. Four junior high school boys reported seeing the object at the same time Britt Lamb, KEVT engineer, reported "very unusual interference" in the station's broadcasting. The four boys said the object which they saw traveling from west to east to north, gave off a "buzzing, ringing noise."

"This is probably the first time in recorded history," commented one of the boys, "that anyone has seen a buzzing ringing light reflection."

Hold for Menzel

Memo to Frank Scully Jan 17 1953

Messrs Williamson, Hunrath and Baker barged into Bedside Manor last night just as we were saying the Rosary, which comes over the air at 7:45 to 8 PM. They stayed till 9. They were nicely dressed and Williamson was asking questions about lecture agencies. I finally told him I thought it would be a good idea for him to work up an hour lecture on Flying Saucers and that he probably could get booked across the country. We discussed phases of the mystery and got on to Adamski's pictures. They thought they were authentic. I asked Williamson about his background and he said his doctor of science degree was honorary and mentioned some place in Canada that eluded me, as the source. I told him I thought Adamski's self-made title of Professor didn't help him but that I thought he was the most authentic rough diamond in the sandlot sciences I had ever met. They laughed, but I rather thought they were laughing somewhat in the manner of "Oh boy, if you only knew what we knew."

They said they had left a message in Si Newton's mail box at the Hotel Brevoort where I had got them a room too. They had hardly left our home when Si called from the airport saying he had just arrived from San Francisco.

The next morning, that is this morning, he arrived at our place about 9 A M and said he had spent three hours with Williamson, Hunrath and Baker at the Brevoort. They apparently had gone over many angles of the saucer mystery and near the end of it Baker confessed that he did not take the kodak picture of a saucer credited to him but that Adamski took it and gave him the credit. Si said he believed that the pictures were authentic but he didnt believe Adamski had established personal contact with space men and attributed Adamski's belief that he had to metaphysical illusions, visions or too great an association with people on this fringe of psychic inquiry.

Williamson concurred in this but said that something certainly had happened to Adamski the time they all saw two space ships in the desert and Adamski drove off about a mile and a half to contact the ship, which he later said buzzed him and wrenched his shoulder by its magnetic force or something and made off with one of his negatives, which was later dropped, according to Adamski, when he photographed a three point landing type of ship.

All confessed they had had trouble at Adamski's about picking up the mail at Valley Center and had been told they would be turned into the FBI for tampering with the mail. They claimed this was entirely untrue but rather than continue under such suspicion, they packed up and left the Palomar Gardens of Adamski on January 12 1953

I plan to check their story. They said they did not want to tell me as I was such a good friend of Adamski's. Newton told them he would tell me in any event as we did not keep anything from each other regarding flying saucers or much of anything else. So he told me within 12 hours.

Present:- Dave & Anna Robeson, Florence McFarlen, Agnes Mann, Gene Dorsey, Ric Williams, & Karl Hunrath.

Solex - Mal Chant

Ishtah Na Ishtal No Ominika Hiah. Ishta Neeah Ma, Madum. Ahtaih.

My beloved children, it is a pleasure for me to be here, and our love is great at this time; it is a sad time. There is some disturbance here.

The meeting of this group was not an accident ! But, it was pre-arranged long ago, as you know. It is the only way for the Divine plan to be fulfilled. Many are awakening throughout your world to this knowledge at this time. As we have said previously: Love one Another, this alone is enough to accomplish what you will.

Conditions are very poor at this time, more so than you realize, more so than any realize. All that has been said in the many holy books, will come to pass shortly; and, ALL must be ready and strong.

The TWO-EDGED SWORD is raised. It is visible to many. This earth of yours is a darkling plane, sweeped with confused alarms of might, where armies clash by night.

Is there any one who wishes to speak at this time, please ?

GENE: Well, is there anything more we can do for our world than pray ?

ANKAR 22: That is of great importance, for there lies great power, as you know, and you can continue in the work you have begun most recently. In that you will find your service, your duty, and your destiny. To ask is to receive, and if it is asked in all sincerety and from an unselfish standpoint, thinking in terms of service to all men where ever they may be: then you will receive !

GENE: Well, before you leave, will you give us your name, or initials, or some letters, as to who you are ?

ANKAR 22: Names are not important now.

GENE: Words are important, and the truth.

ANKAR 22: Yes.

Someone else, please. I know someone else wishes to speak, a sister perhaps.

ANNA: I was thinking about Bill.

ANKAR 22: Yes. There is good there. There is protection there and there is a duty to be performed. There is no need to worry at all, for there is strength and power of the highest nature. I ask that you keep thoughts of fear and anxiety from your mind. For by sending out these thoughts and vibrations from them, you do him more harm than good. Do you understand ?

ANNA: Yes

ANKAR 22: You may go to your bed and rest, knowing that this soul is guided and protected, no matter what may happen on this earth plane.

AGNES: Why do I feel so close to you, as if I have known you, your ~~kindxandxyourxlanguagex~~ tongue and your language, for ever and ever, - -

ANKAR 22: My child, it is a~~s~~ simple answer. Of course we know each other, for a long time. You are very old, as we all are. Memories of the past have come to you; and most recently even more so, is that correct ?

AGNES: Yes, indeed it is.

ANKAR 22: And there will be more. Yet within your own mind sometimes you doubt, you think it may be your imagination; but, it is not if you elevate your thoughts. You see, you are the master of what comes to and through you, and you can control it. You must be the master of these forces, and not let them master you. You must be a pure channel. there is no need to worry about lower forces, for if you do not wish them, they will not draw n~~e~~igh to you. That is up to you; but, about your own wonderings about the past, these will come to you more and more as time goes on. For the time is short; and, these revelations must come soon, - - and you can rely upon them. The flesh will tell you

one thing; but, what the spirit utters in the quiet moments - - - this is truth, and from the Father.
KARL: I have a question regarding the language of the chant. Could that be the Solex-Mal ?
ANKAR 22: Yes, - - - you are right, my brother. You should know it well, for you have used it well, for a long time. But, I tell you nothing that you do not know, for this is a fact well known to you, is it not ?
KARL: Yes.
ANKAR 22: Oh ! the beauty of it all, is beyond mortal observances, is it not. I listened again to the transcription that you have recorded (previous guidance through Ric) - - - true - - - it was given in love, and in love it was received; and, there will be more, more. Someone else, please, - - - for I have been here throughout the day, for I am needed at this time - - - for there are things to be decided upon here - - - in that you all sense and hear within you.
Is every one relaxed, please - - - - is every one relaxed - - - - (chairs creaking in background) Some one else, please.
GENE: Will I be impressed on my course ?
ANKAR 22: You have always been impressed, and more so now, as you have realized most lately, and of course, my brother, you are a very sincere person, and our hearts are glad, over-flamed with joy, to find one such as you. The world needs men, who love their fellow men. Your sincerety, and your searching for truth is all that you need. And as I said to ask you to receive from the Father; and if you ask, you will receive most anything that you desire, that will benefit your brothers. You can <u>count</u> on it ! For you will be impressed, and you can rely on those impressions completely. And I might add to each and every one of you, as I have said before, if you could only see the great power of the Universe, <u>that is behind you</u>. There are legions pressing the truth, always ! Shall we go on ?
GENE: Is there something that you would want to say to the boy?(refering to Dr. Williamson) Would you give him a message on the transcription ? He feels a little concerned at this time; and I know you could ease his mind.
ANKAR 22: Yes, I might say that, he is concerned, he is anxious because of his wife, and the family to be; but, this will all take care of itself, and we are not too concerned, for we know that he has faith, or else he would not be doing what he is doing. And, of course, that situation will take care of itself in due time. I might say also that I could tell you much; but, I know that there are things within your hearts that you have felt here this day, that you have felt previously, that is now making itself more clear to you; and, I am asking you to speak, so that this information may be drawn from you, without my having to devulge it. Do you understand ? Do you understand ?
GENE: Are you speaking to me ?
ANKAR 22: All of you. Speak that which is within the heart, for the heart is speaking, and wishes to express itself.
KARL: Might we have an opportunity to see a craft at the desert tomarrow ?
ANKAR 22: That may or may not be; but, I might say that your impressions to go there are correct, and you should by all means do so. Although you may not observe a physical manefestation, and thereby feel disappointed because the physical wishes and desires to be entertained, in a sense; never the less, there is an important reason why you go, Although it may not be obvious to you at the time.
Is there anything that anyone wishes to ask ?
GENE: Can you see the conditions surrounding Elaine, Anna's daughter in New York, on the proposed television program with the Ford Hour.
ANKAR 22: I heard that mentioned. Yes, there is a disturbing influence there, working against the type of program, that is planned.

Vision of Saviour on Cross in Sky Seen by Hundreds

IPSWICH, England, May 8.—(AP)—The Rev. Harold Godfrey Green, vicar of St. Nicholas Church and chaplain to British forces, said today he had verified "quite definitely" the story of hundreds of Ipswich residents who said they saw a vision of Jesus on a cross in the sky during an April 27 air raid alert.

"There was scarcely any variation—if any—in these accounts," he said after extensive conversations with residents in this East Anglian coast town. "Hundreds of persons have said they saw the sign clearly."

Nearly 800 townspeople crowded St. Nicholas Church—which seats only 500—for a sermon on the vision yesterday, when the vicar said:

"I have satisfied myself beyond doubt of the authenticity of the vision. I regard the sign as a good omen . . . I did not myself see the sign and for this I am sorry."

The vision, which lasted 15 minutes, first took form as a large white cross, the chaplain was told, and then the form of Jesus appeared.

"His head was bowed and his feet were crossed—all who saw agree on these details," he said. "When it disappeared it did not drift away like clouds but vanished instantly and entirely."

Clouds in the sky drifted by while the vision remained stationary.

I feel that this is true –
Please send it back to me =
I have seen him = I know that feeling =

Of course, this can be expected; however, if she were to keep her mind open, and constantly think of the Father's will be done, then if it is meant, it will be; and, if it is not, it will not be. It may seem dissapointing and disillusioning, but it can be for the best; and, that in itself will be a sign unto her, and she should be happy in the results. You might tell her these facts. It is difficult for me to leave; because, I feel that I have not spoken of that which I have come for. I could tell you, as I said before, but I do want you to realize it together as a group - - of what has happened here today - - - and what is to BE. It is a beautiful thing, and we rejoyce in the fact that harmony has been established - - - and you have met each other, at last. Even the fact of the ships appearing - - - was planned previously.

GENE: Well, I have talked enough.

ANKAR 22: Yes, of course you did.

KARL: Perhaps what we should bring out of our own accord is the fact that perhaps a number of us, or all of us here are apples that have been salted away here because, we have volunteered to serve.

ANKAR 22: Yes! And much more can be given on this; and, I will wait for the sister. (Some one had left the room).

INTERMISSION

Solex - Mal Chant

Hahtonish Ka Na A Kaie.

Ankar 22 Speaking - - -

That will be all until you complete your meditative prayer.

Now I meant at this time, for a few moments, for you to meditate on and speak of your impressions.

Yes, my child, you have been looking for a long time. This knowledge is within you - - - within each one of you. The question is to find it. There is no need for confussion. Look within yourself for the answers, for they are there. Does anyone else wish to say anything before we continue ? (Silence)

As the brother has spoken - - - the apples - - - I would like for him to continue with that thought, and speak to the group, please.

KARL: At this time, there are on the earth, poeple, who have attained a high degree of development far beyond the earth, and through the higher planets of this Solar System; and, through their love of humanity they have volunteered to come back here and help earth poeple to a better life. At this time, we are engaged in gathering these poeple together.

ANKAR 22: And these individuals are awakening to this fact everywhere; and you are wise intthinking that you are not the only one. This is the humble and right attitude. For, the haughty shall be cast down; and the meek and humble shall be exalted, as it is written. Glory to His name. Yes, what the brother has said is true, but this is not news to you, to any of you, for you have always known, and as you but look into the past, the many events of your life, you will know it, and it will come from itself to you. It is good that you speak and give out with your thoughts at this time, so as to better understand each other, and to realize who they are, and what you are for. Every one has a purpose, from the unfortunate, who has lead a life of wickedness, to the most spiritual seeker. Every one is for a purpose, otherwise they would not exist, and would cease to be. For I ask again while I am here, that you speak to each other, to realize these things; and, to better know your mission, singly, and collectively, please. Do not be afraid to speak - - - any one, please.

KARL: To the best of my understanding, I believe that my duty is in the development of electro-magnetic apparatus.
ANKAR 22: Yes, of course, and all these duties will make themselves known more, as time goes on. I did not mean to ask that each one tell his definite purpose, for there can be many purposes within a purpose, and these can change, as time goes on. I mearly meant for those here to speak of their impressions, and how all of these things that were discussed today come together, and join, and merge, and are one, - - - please.
AGNES: Would you by any chance know of poeple on the other side ? Father ? Mother ?
ANKAR 22: My child, much is known; but I am not here at this time for that purpose. You understand ?
AGNES: Yes. Yes, I do.
ANKAR 22: Yes, Some one, Surely you have realized how, your various sources of knowledge have come together, to, merge, have you not ?
GENE: Well, there is no doubt about that in my mind, the whole thing is so multitudinous, and volumnous, that I couldn't even begin to - - -
ANKAR 22: You see what I am trying to do is mearly to make you realize the importance of your associations, which I know that you feel, there is no question of that, nor there is no doubt in any of your minds. But, I mearly want you to speak of what your heart tells you, what you know to be true - - -
AGNES: Then, this meeting was not accidental ?
ANKAR 22: Of course not ! It has been known for a long time, to the other sister - - - is that not correct ?
ANNA: Yes!
ANKAR 22: Of course ! In fact, there is much that she has known, that she has not told any of you. Not because it is a secret, or because you are not to know; but, because it is to be revealed at the proper time, is that not right, my child ? Of course!
And, I want you to know that she works on the high planes, - - - for she desires truth, and greater truth; and, when she seeks, she seeks the throne itself, and is not satisfied with lower manefestations, for the purpose of elevating herself, or the purpose of display, as many in the work do and thereby attract those forces. And, of course, most of you who are beloved of her know this fact, and I need not mention it. It has been obvious for many years. Perhaps, however, she may feel at this time that she might tell you something, of how she knew this would come. In itself, and of itself, it is not the end. It is not the climax. It is only the beginning of a new phase, of a new stage. Perhaps she can tell you in her own words of how she knew this was to be, but, the day was not known to her.
ANNA: Well, I sent out a thought, that some one would be sent here, that would aquaint us with the way, to look for these saucers; because I have felt that they have passed over here at night, and I would even get up out of bed, and look out the window. Then the thought came to me, that somebody will be sent; and, we will become familiarized with this. And, there is a great deal more, of course, of instructions, ~~fmx mmxxmrk~~ and more work, and there will be many things to these poeple, which has been received already in our messages. But, I did feel that somebody would contact someone, and they would be brought back into town. It could have been intuition; but, it was more than that. It was more like a message.
ANKAR 22: Yes ! Of Course !
GENE: Well, that message that we received relative to the footprints - - of course I know that that is true - - -

ANKAR 22: Yes, of course !
GENE: - - - the symbolism on the footprints, will they be left in various parts of the world ? Is this information to be gathered together, and interpreted by us in various interpretations, of different ideas or thoughts held by different nations, that in their hearts they are the same. Or with-held. Or is it something we should circulate and talk about.
ANKAR 22: It cannot be spread too much, for there are many groups; but, taking the world population as a whole there are not many. This is a center for spreading this information, and it is a sign - - as prophéceid. There will be those who will say that it is the spirit of anti-Christ, that it in itself is the mark of the beast; but, it is not so, as you know within your own hearts.
There is another here, whom our sister saw, that wishes to speak. I believe the sister saw him, another who teaches us all. There is another here besides myself, and you are aware of it.
ANNA: Yes.
ANKAR 22: I believe you are aquainted with this teacher.
ANNA: Saga. No it isn't Saga.
ANKAR 22: No, it is not.
ANNA: Now there are many very beautiful figures coming in, from a very high conciousness; but, they are just showing themselves for a moment, and then they seem to pass on. And there is a very bright light all around us. I feel that through concentration, or by sending out our thoughts, you can contact these poeple, and they will make it possible for us to see these ships.
TEACHER: My beloved, if you could but know the love that is in our hearts, to know that there are those that are willing to serve. As you all know, time is so short at the present time, that for these days, the days are numbered, and all must try to fulfill that which must be done. True there is no time, all is eternal.
It is difficult for me to speak, as the brother is very tired, and there will be more tomarrow. I speak for all in saying that we are with you always, as Christ has said - "Lo, I am with you always".
ANKAR 22 Speaking! That is all.

Note:- Ankar 22 is from Adee, Etonya.
Capitol Adee of the planet Jupiter.
In answer to a question, he has previously informed us, that he is not a dis-embodied spirit; but, is in the physical on Jupiter, and by his power of projection can contact us through a suitable instrument here.
K.E.H.

THE RIDDLE OF THE FLYING SAUCERS--Heard

This report covers just over three years from Midsummer 1947 to late summer and early autumn 1950 and gives some chronological order to a series of unprecedented objects seen and numbers of witnesses involved.

This report tries to define what has been seen, who controls the machines, who has made them, whence do they come. Any conclusions on evidence we have can only be deductive but there is too much to say merely there is no possible theory of any sort to cover these oddities of the upper sky.

Heard starts out with the Arnold report. His comment is that their are two main factors in the story. First, that something extremely strange had been seen by a trained observer; Second, something which cannot be seen or tracked persists in keeping the subject out of the big papers, making out that people who saw such things were subject to hallucinations. The same thing happened with meteorites in the nineteenth century. Learned societies agreed that papers reporting such things as meteorites must not be published because they were not possible. "Why?" asked Lavoisier, the great French savent, do intelligent, scientific persons never see meteorites?" The answer was, "Because a trained mind would immediately perceive that what was thought to be a meteor was only the vulgar misapprehension of an uneducated person.

He tells the Dahl case, mentions that Dahl was told not to speak of what had happened. He mentions that it is odd that two occupents of the plane Davidson and Brown had been killed in had bailed out 11 minutes before the plane itself crashed, why, considering the time between the engine catching fire and the plane crashing, was the plane, itself not on fire and slowed down to minimise the crash?

Outstanding thing about reports that came in ~~th~~ was that discs made no noise and they agitate compass needles.

Chiles and Whitted incident on routine Eastern Airlines routine flight from Houston, Texas to Atlanta, Georga, and Boston. Cigar shaped ship which they almost hit left prop wa~~t~~sh.

Capt. Mantell case is reviewed, also Gorman chase.

E.G. Hall, Idaho Power surveyer, made theodolite observation of saucer over Emmett, Idaho, Feb. 20, 1948., 4000' up, smallish size surrounded by a 'fuzziness' like whipped cream seeing to show some form of energy which vaporizes in our atmosphere. No sound. Gleaming white.

McLaughlin at White Sands with theodolite crew saw one. 18,000 miles an hour and made a dart up. Conclusion reached by author that nothing but a type of insect life could stand sudden pressure changes and as all indications show intelligence manning ships, this one made pass at balloon.

This evidence comes from men trained to observe and are on their own ground and do not want publicity or to see things that are odd. They are neither credulous nor fanciful as the great logician John Stuart Mill said,"We must remember that men are more likely to be right in what they affirm than in what they deny.

The principle is based on the fact that hallucination is less common than ignorance. There are in the universe far more things that man has never seen than those things which he has imagined were there and which were not there.

There are inaccurate observers and 'hoaxers' which makes it more imparrative to find out what is true. 'Project Saucer' launched and Sat. Evening Post article written. Harper's Magazine wrote article on Dr. Velikovsky's book. Most magazines kept hands off. Government indicated saucers were not American made then Henry J. Taylor, well known commentator and columnist gave lecture in which he said they were real, but were made by our country.

Two ways of keeping news back until you are sure is by censurship, which should not be practised except in wartime and the 'debunking' joke. It is hard to answer a sneer. Keyhoe's article in true mentioned.

A B-29 over Tuson, Arizona was just leaving ground as a saucer appeared to hundreds of people. Tucon Daily Citizen recorded it and Air Corps came in and spread smoke trails the next day but citizens said there was no similarity between that smoke and that emitted by the saucer with fire streaming from it and the burst of black smoke all saw.

Mr. Heard says that the simplest explanation is always to be trusted in something we know nothing about. Incredible went of accurate use with Einstein's discoveries. We have seen the crafts but not seen them land. We must rule out the idea that they are home products. Their speed, maneuverability, strange colored lights. Their behavior proves they are not home products. They are handled with masterly power by someone but whoever it is does not know the stringent rules which make possible flight on our level at our stage of development.

The author rules out Russia as a source quoting Dr. Grimm who visited Russia a year after the war. Dr. Grimm said the Germans had destroyed with great thoroughness the great Dneprostroi Plowr Plant requiring extensive dynamo repair, some done in this country, therefore, Russia would be incapable of manufacturing this superior craft ahead of us. Besides, why would they risk flying this invaluable craft in such large numbers over the U.S. Russians would not give themselves away in this manner if the craft was theirs. Besides, the craft have been seen all over the world. The author eliminated other countries in like manner.

There appear to be two types. That about 1008 across and small craft about the size of a small plane. There are varieties of shapes.

At Flagstaff, Arizona in a clear atmosphere Dr. Seymour L. Hess, the resident astronomer on May 22, 1950 reported to The Arizona Daily Sun that, while studying weather conditions, he had seen a bright object, a disc visible to the naked eye. He trained binoculars on it which convinced him this was not a plane of any known type and he made sure of two things. The machine was cutting through the clouds so couldn't be a weather balloon; further, "four-power-binoculars" showed that the object was from three to six feet in diameter. The time was 12:15p.m.

Next were two mass-observations. That of the Mantell incident, important because the observations were made simultaneously by so many

people so widely scattered. More than 150 miles apart, people looking up saw the same thing which meant that the object must have been at a vast height but still must have been vast in size to have been visible to the human eye. This must be the disc's mother ship.

The second case, a perfect observation of this or a sister monster was made in Idyllwild on Mount Jacinto's slopes. About 100 people were watching two jet planes practising high up. Among them were two Air Force Sergeants. Bill Elder, 25, had served in the Navy in the last war and had acted as look-out man when at the last the desperate Japanese tried to hold back the closing grapple of the American sea-and-air forces by sending up the suicide pilots. Bob O'Hara had been 'spotter' for the Air Force in air-sea rescue work.

A large craft was spotted about 40,0008 up. The trained watchers said it was a craft they had never heard of or seen and it looked like a big thick pancake. It had a fin which may have been smoke or fume. They had the impression this fin whirled.

Captain Wm Sperry's account of a cigar shaped ship circling his D.C-6 (American Airlines) when it was cruising at 300 miles an hour was summerized by his saying that he would maintain the speed of the object was far beyond the limits of any known aircraft and indeed 'fantastic', but the shape was clear to him and his two assistants because the moon was full.

Seattle, Washington, April 29, 1950: Thirty employees of one of the city light sub-stations all declared they saw a double-decked balloon moving majestically through the sky. As they watched it sailing over South Seattle, it exploded. They informed the police who combed the area where fragments should have been. Nothing was found. Do they dissolve into gas when they feel their end is near so as not to leave fragments?

At Twin Falls, Idaho a disc was sighted by a couple of observers which seemed to be in trouble. It flew very low and seemed blue instead of the usual white. That same day at Salmon Dam, Idaho two miners were made to look up to the sky by a strange roar. They glimpsed a flashing object. It was two discs so bright as to look like mirrors 'waltzing' at excess speed. Was the blue colour a sign of depletion and when the two were seen together had they just raised their temperature, made their strange circulation brisk by having a whirl round each other? Whirl two objects, each of a 'coil' properly 'wound' and electricity is generated. Were the discs recharging each other?

Einstein says that matter and energy are really two aspects of the same thing. Perhaps magnetism is the other pole of gravity. Every force seems to have its complement. Negative and positive electricity seem to be the basis of everything that gives us the sense of touch.

Any bit show of electrical experimental gadgets shows an object of weight raised and held in what seems empty air because a suitably arranged magnetis holding it up. Maybe our saucer people have mastered this and go to the South Pole for recharging.

July 1948 in Alice, Texas five citizens saw a big strange object about 5,000 miles up hover for two days. It was spherical and gave off little light. It seemed to be observing only.

We judge people by their actions. The actions of these crafts have been those of gentlemen conducting themselves with patience and courtesy, quietly observant. If our visitors took their first views of us from a distance, our Gulf of California would suggest no occupants. Our photographs secured from a film sent up by rocket to 100 miles tells us that. Our cities would show an ambiguous stain on the landscape. Our highways would appear as some sort of low lichen spreading a fine filament-system of roots ofer the ground surface to feed it. P. 88 Our observer would watch those roots for circulation of floud going to and from the veins and he would see minute objects slowly percolate up and down these fine channels. Curiosity would draw him closer to see that they were low organisms which evidentally became exhausted, yawned along their sides, discharged the contents of their digestive system, closed their mouths and fell to sleep, etc. Conjecture.

P. 89 Interesting bit on the gold at Fort Knox interesting the saucers. What did we use it for?

P. 90 Evidence of point or beam probes given when Radar picked up planes being echo-sounded. Sat. Evening Post had article called "The Sky Is Haunted" in which they were called 'Gizmos'

Inference raised by Commander MacLaughlin observations that there were two acute problems raised by saucer flight. First was tremendous speed, 18,000 M/H, and even more serious, the tremendous accel/eration, assumes that the masters of thesemachines are minute because of size of discs and of insect type because they could stand the acceleration.

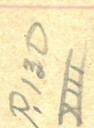

Author eliminates Venus because no light could get through cloud bank and Mercury because of two much light and goes to Mars. He decides through rationalization that planet could be inhabited by insect life and develoups the bee theory.

P. 124 in 1877 Asaph Hall of Naval Observatory at Washington D.C. trained 26 inch scope on Mars and saw a minute body racing round above the surface of mars. On the 17th he found another. They were noticeable only by the flash as the sunbeam strikes off as it touched them. He infers that they were man made or Mars made, rather.

Mars has only one low range of mountains of 3,000'. There are no crater or meteorite marks, therefore, a/ report of an explosion on Mars Jan. 15, 1950 by a Japanese at Osaka City Planetarium sighted through an eight-inch reflector could not be explained away as a volcanic explosion as Dr. Hass of University of New Mexico reported.

One of huge rocket launchings at White Sands did not return. The theodolite team tracking it had it in view until it suddenly vanished. Possibly the rocket blew up, burnt in a moment to dust because it ran into such heat that it was pulverised. It is not true to say "the higher the colder". The highest atmosphere may be hot as logically as cold because heat is caused by swift motion of molecules but there are few molecules so it cannot be heat or cold.

P. 127 Rocket may have been hit intentionally. If an artificial satellite has been planted in our circumference and the crew saw this unmanned derelict torpedo flying blind they would naturally shoot it down to prevent collision.

Heard mentions Charles Fort as a student who presented much data contrary to existing beliefs in regard to our earth. He states that we have been under observation for some time to be sure we do not do something with our various energies which might cause our planet to explode or be thrown off its axis.

Heard says the time has arrived to summarize: first, some beings are here; second, these beings are very intelligent and their intelligence seems to be combined--as does not always seem to be the case with ours--with consideration and patience.

What has happened to our poor, standard, old-fashioned, common-sense notion of probability? Once 'all sensible men', 'all educated persons' thought much the same about certain basic things. They might vary in detail, but about the great map of things--here is the land of fact and there the ocean of surmise--they had no doubt.

Now the land has been inundated with surmise and out of the ocean stand up queer stubborn, enigmatic rocks of fact on which our traffic-streamers of common sense get frightful bumps.

If you say it is hallucination there are hundreds of witnesses as sober, as cautions, and some of them better informed than you who have seen them

If you say it is a secret weapon--but do face up to what that involves--donot say it because it sounds easy. It is not. It means that responsible people have misled the public. They just said we are not making flying disce, not, no one anywhere in this world or outside is not making them. However, a foreign power could not afford to give away their whole bag of secret tricks by sending their craft cruising idly over the United States.

We hateto conclude that it must be Mars of the H.G. Wells science fiction but truth cares little for our dignity and ~~xxxxx~~ we try to sufficate the enfant terrible, that unwanted child of intelligence. The Martian is probably a super-bee perhaps two inches long.

The emotional tolerance and not the intelligence tolerance may be the determining factor for those who accept or reject. ~~xxx xxxxxxx xxx xxxxx xxxxxxxx xx xxxxxx xxxxxxxx xxxxxxxxx xxxxxxx xx~~ ~~And~~ An open mind and the freedom thereof may be denied individuals by their own subconscious fears. This open mind may be harder for older people. However, anyone who is elderly today has seen things happen that all informed, scientific opinion was, up till that point, certain would not happen.

Pages 152-3-4-5-6-7 are heavily marked by you, Frank. Perhaps it would be better for you to reread them!

Frank

(The following is a selected excerpt from a series of radio communications in International Morse Code with space craft in the earth's atmosphere.)

Etonya, land of banded beauty

Adee, Etonya, Capitol Adee

From Etonya, land of banded forested beauty

We say to you:-

Blackened temple, blackened door

What man says, "There will be no more"?

But the cross that is above it

Golden pointing to the Father

Is a symbol that will live.

Man has taken this true thing,

And added to it his own ring.

Moulded, sculptured, some with clay have fashioned this

Some of granite sculptured this

Some is firm, some is weak,

But man's needs it cannot meet.

The Father provided, man divided

Thus we have one body, many heads.

This results in a thing but dead,

Except what the Father himself hath said:-

But, the Father himself hath said:-

"The truth, yesterday, today and forever,

It can never be removed by man, who would sever it."

"There is not a church of building blocks,

But only that, which will lock within itself, man's hearts."

The Father provided, man divided

The truth remains,- the other of man's device, ~~of skys are~~

But His word is as a star, burning fiercely, burning brightly,

Burning rightly, burning white.
The other, made of hands of clay, the buildings made of clay
By hands of clay, - - to return another day.
We do not know where, when, or how,
The point is now! Now!
To the sky, where men longed to fly,
Since the beginning.
Where it caught us too close to the sun, for fun
For him to prove a world beyond, his ego could attain
Oh! Alas! How he plummets, how he falls.
A man must discard, but regard
The Father's will, in the still.
Look up above the clay and ashes
Which remain, from the test of fire which detain.
Oh poor man, that thou art, looking to things of stone,
Things of wood, things of statue made,
Things of gory, blood and hoary.
Be not depressed, or repressed,
Not to incense filling, pungent sweet,
Not to dome or crest, but arrest:
The truth that comes to the Father's sons,
To this house of yours, which has always been for all.
Greetings from the people of Adee, Capitol of Jupiter
This planet sends to you in love/to their brothers,
Casting away the abominable things that are man made:
Manifestations final, manifestations,
But when man from man alone constructs,
It is a tottering weak thing, when constructed of clay by clay,
How can it, but return to clay?

But when from the Father, it is eternal and bright:

It is a star!

As veils of Venus hide her beauty

So has man hidden beauty by thing of clay.

He moulded; but, as veils are removed,

So the light from within comes through every day,

Striking a tot, not missing a jot, but nothing touching rot.

It strikes every corner that before was in darkness

Now, the light has come in, flooding now from the Father.

The Father provides; man does not divide,

For he needs not beads, temples grand, cathedrals absurd, chapels unheard!

For the vast Expanse, with Saturn as an alter thrust,

Through the dust ethereal, must support all just!

Who will deny His realm? His all? His church? His one?

His worship one? He provides; man must not divide!

Look to Him! Look for Him! Work with Him! Watch for Him!

Man of earth, tear down that earth!

Bathe thine eyes so thou can see:

What immortal realms to be, to be, to be!

Etonya, land of forested banded beauty:

To the earth that knows great dearth,

That says, "Thou art my brother"; and turns and kills another!

Am I not my brother's keeper ? ?

For earth's grim reaper, is not known in the starry band!

In truth, not known in any land, except one house,

One fallen house, that is a land that shall not stand!

America! You who cry out, "God is with us beyond a doubt".

You must first see the truth! That one house alone will be complete!

Will not turn sun heat!

Divine love from the Father has been encased in a tomb,
Now release it! Now free it!
Let the glorious golden light reach through the earth. Delight!
What has this earth to proclaim?
When there shall come the latter rain from above?
The former rain has come to you, Oh man.
You toiled; you listened; there was a harvest reaped;
But almost, the earth was asleep.
Now from the Father to you, Oh man, there comes another Man!
He slumbers not; He wavers not; In things of spirit He is strong!
He knows but right. His strength does find the Father's strength to mind.
Comes to you as brother must, when on earth there is rust
But as dust is eating slowly, and has devoured the very select.
Above we stand! For you we land!!
Soon brothers, we, hand in hand, arm in arm, cheek to cheek
And heart to heart, as brothers should be,
Our women strong at our side, looking into the depth of soul.
We of Etonya see your heart; it is pure; it is a flame.
As you are looking into our eyes and our hearts, we grasp your heart,
As our hand grasps the forms, the Father has proclaimed shall meet!
Your forms, I shall touch! My form, you will touch!
You will have known my spirit.
Now we will join our brothers in the house that was incomplete.
Now we shall know the love to welcome our brother from this land,
Starry band. Planned. Provided! Not divided!
With our brother we do stand before our Infinite Father.
His joy is immense! A sense!!
The creation smiles, for a wayward child has come home,
And the dome of heaven sighs!

Awakening Father in the skys drops to earth!
Blue of sky, Gold of Sun !
Man of earth, thou art immortal!
Man of earth, thou art as a portal!
Look up and be as of one!
And loving tenderly, we take your hand,
For we, older brothers guiding you, as He guides us!
Thrilling in each other's love!
Man has put away his playthings, and dusty gods.
Dust must be brazen brass. Idol, rust must be.
But the Father, greater than everness, in splendor,
And we stand at astral door!
For this unit now complete, looks beyond
Even glimpsing worlds that bow at His feet.
As we see in the vastness, and blackness of evil,
We cannot see as the Father sees, as we leave this unit.
But we are sad when we leave this unit,
Where our brothers of this earth have a dearth.
Now we come, hand-in-hand, and go on. We can progress!
We can grasp the beauty throughout the Omniverse.
There is a strain, a note unreal, unknown not weird
Then with zeal, reality shall be ours.
Man from earth, no longer insane, because of rain,
Has lain aside clay boots, and shoots heaven-ward.
Our brothers return! His word fulfilled!!
A new heaven and earth ! ! !
Glory to the Father ! Now Son to the Spirit!
Trinity in three. For me! For thee!!

Our hand is waiting for your grasp. Reach up, the time is at last!

Glory to the Infinite Father, who is the Father to us all.

Given under my hand, this your first day of November, 1952,

Through my beloved brothers of Etonya,

I am Ponnar.

The foregoing was an address from Ponnar of the planet
Hatonn, of the galactic system of Andromeda.
He spoke for the people of Etonya, planet of the
5th orbit, or Jupiter, of our solar system.
He was introduced by Sedat, Keeper of Records,
at the Universe Temple of Records on Hatonn.

This address was received in international morse code
as relayed by a flying saucer craft in the earth's atmosphere.
